

I-Pad in the Cockpit

Learn how to use the I-pad in the Cockpit for navigation, weather, traffic, airspace and airport information. If you have made the transition to the iPad, or are thinking about it, this seminar is for you. We will discuss the regulatory requirements for Electronic Flight Bags (EFB) for Part 91 operations under both VFR and IFR conditions. We'll review the iPad hardware and some of the most popular aviation applications used today. Bring your iPads and follow along. Click the link below and register TODAY!

Directions: Take the Main entrance to the Asheville airport then make an immediate right. go one block. The Lacy Griffin building on your left. Parking is in the unpaved lot to your right.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
